Ecologie Product Specification 2021

Issue 4

**Style Code:** EA030

**Style Name:** Banff Regen Sweatshirt

**Retail Copy:**

Using 70% regenerated cotton, the Banff Sweatshirt is a sustainable yet highly brandable product. The French Terry and angled styling on the cuffs separate this sweatshirt from the crowd, while the fashionable unisex fit has universal appeal. Versatile crew neck styling can be dressed up for a corporate look, or dressed down for a casual take.

**Compliance:**

Our vision is to build a better future for our planet, working hard to ensure that environmental sustainability and low carbon impact is at the forefront of our thinking and innovation. As a responsible and ethical brand we ensure all of our manufacturing methods go above and beyond the ideals of our growing customer base, using only factories that are GOTS, RCS, SEDEX, BSCI or Oeko-Tex Certified

## Why use Re-Gen Cotton?

Waste cotton is collected and sorted by colour

→

'Clips' are shredded and blended with recycled polyester derived from waste plastic bottles

→

Re-spun and knitted into new garments

### Recycles:

- On average 0.22kg of cotton waste and 19 plastic bottles per sweater

### Reduces:

- The land mass needed to grow new cotton; saving 200g of pesticides and fertilizers as a result
- Energy usage; saving 3.2kWh

### Saves:

- 20,000 litres of water
- 2.7kg of dyes and chemicals
- 11kg of CO2 emissions
